Education

2022

Graduated from high school

3rd school

Nov 2023-Aug 2024

Pinecone Academy

Language

English - Upper Intermediate

Skills

Languages & Tools:

HTML, CSS, TypeScript, JavaScript

Database Management:

Node.js, Express.js, MongoDB, Mongoose, NeonSQL

UI Frameworks and Libraries:

React, Next.js, Apollo Client (GraphQL), MUI, DaisyUI, Tailwind, Framer Motion, Three.js, Locomotive Scroll, GSAP, Reveal.js

Testing:

Jest, Cypress

Batbold Batmunkh

Full-stack developer

Objective

A motivated and adaptable Junior Full Stack Developer seeking to contribute to a dynamic team in the tech industry. Eager to apply my skills in both front-end and back-end development, with a focus on building user-centric applications. Passionate about solving challenges, enhancing user experiences, and continuously expanding my knowledge in modern web technologies.

Experience

○ Jun 2024 - Aug 2024

Pinecone-Monorepo (Internship)

Worked on the employee details service using an NX monorepo.

- Implemented CRUD operations for employee data.
- Designed and developed the GraphQL schema for managing employee information.
- Created and configured models to structure employee data.
- Wrote and executed Cypress and Jest tests to ensure the reliability and accuracy of the service.
- Collaborated with team members to integrate the service within the NX monorepo.
- Provided technical support and code reviews to enhance the overall quality of the project.
- Assisted in troubleshooting and resolving issues to maintain project momentum.

○ Apr 2024 - May 2024

Furniture E-commerce

I focused mainly on front-end development on this project

- I primarily focused on front-end development using TypeScript with Next.js and I used frameworks like MUI, Locomotive Scroll and Framer-Motion to make it user friendly and comfortable
- I actively collaborated with team members through regular communication, participated in code reviews, and worked together to solve issues and make informed decisions. Additionally, I shared my knowledge to help improve the team's overall skill set.

○ Mar 2024 - Apr 2024

Food delivery

Developed the user login and registration components.

Worked on both the front-end and back-end of the website.

- I implemented full CRUD functions for user data and information, gaining valuable experience in managing NoSQL databases with MongoDB. I overcame challenges in implementing secure authentication methods, enhancing user experience with a seamless login and registration process. By integrating best practices for security, I improved the overall safety of the system. Additionally, I contributed to faster project completion by efficiently managing the database and collaborated closely with back-end developers to ensure smooth data flow between the front-end and the database.
